Hiring of Dozer (BD155 or equivalent) with Heavy duty blades for Stockpile Management for 3 years at Tata Power-Mundra	INR 2000/- (INR Two Thousand Only). *To be submitted along with EOI.*	INR 200,000/- (INR Two Lakhs Only). *Bid Security to be submitted as a Bank Guarantee or RTGS or Demand Draft* ***at the BID stage and not with EOI***

1. INTRODUCTION:

The Tata Power Company Limited (TPCL) is among the largest private sector Power Utility companies in India with presence in Generation, Transmission and Distribution of Power through conventional and renewable sources.

Mundra Thermal Power Station (A Tata Power Division) has implemented the 4150 MW UMPP near the port city of Mundra in the state of Gujarat in India. This UMPP is India's first 830 MW unit thermal power plant using supercritical technology. MTPS operates on imported coal on pulverized coal-based boiler technology. The generating plant is in Tunda village of Mundra district in the state of Gujarat, India.

The tendering activities for this Project are being managed from Tata Power's following Office:

The Tata Power Company Limited,
Mundra Thermal Power Station - Ultra Mega Power Plant,
(Formerly a Unit of Coastal Gujarat Power Limited),
Tunda-Vandh Road, Tunda Village,
Mundra, Kutch 370 435, Gujarat.

2. SCOPE OF WORK:

The scope of work for Stockpile Management at CHP/ICHS includes Making space for storage different types of coal & ensuring its availability for Bunker feeding 24 hrs basis. Coal to be pushed out/ push back for the stacker reclaimer installed at stockpile.

1. Description of Equipment: Type of Equipment

BEML BD155 Dozer, equipped with a heavy-duty coal blade, or an equivalent bulldozer such as Komatsu D155AX, with a heavy-duty coal blade, or Caterpillar D8T/D8R, equipped with a heavy-duty coal blade. Photographs of the coal blade are as below:

- Fuel Type: Diesel
- Working Hours per Day: 16 hours/day, as per operational requirements.

2. Scope of Work

The hired bulldozer will be used for, but not limited to, the following activities:

1. Stockpile management plan to be prepared based on Tata Power's input and submit for approval in advance as per upcoming vessel receipt &/ as per vessel gap planning, change in operation requirement.
2. If any deviation in execution of stockpile management plan should be brought into Tata Power's notice and amend necessary changes in plan.
3. Ensure Bulldozer availability at all the ICHS/Stockpiles.
4. Efficient utilization of bulldozers for coal feeding/compacting/space creation/ramping, to ensure availability of coal near all feeding sources.
5. Ensure availability of coal dust control system at both stockpiles. Dust Suppression system (rain bird system) availability to be ensured before initiating coal handling operation.
6. Ensure that no foreign material like Stone, MS&SS material etc. are lying on stockpile & if found, immediately to be segregated from stockpile.
7. Coal compacting, dozing will be integral part of stockpile management and has to be executed as per stockpile management plan.

Services of O&M of Bulldozer:

The contractor shall be fully responsible for the operation, maintenance and upkeep of the deployed bulldozer, including the following:

1. Safe and efficient operation of the bulldozer shall be the primary responsibility of the contractor.
2. The contractor shall deploy two qualified operators, each having at least 2–3 years of relevant experience in bulldozer operation. Adequate manpower shall be arranged to ensure operational continuity.
3. All spare parts, lubricants, consumables and maintenance materials required for the machine shall be within the contractor's scope. Disposal of used oil, lubricants, filters and other maintenance waste shall be carried out by the contractor as per Tata Power's applicable environmental and disposal guidelines.
4. The bulldozer shall invariably be fitted with an approved heavy-duty coal blade. Operation with a normal/general-purpose blade shall not be permitted unless specifically approved by Tata Power.
5. A bulldozer shall be considered available only when it is in good operating condition, capable of performing the assigned activities and available with a skilled and qualified operator. The machine shall also be capable of moving with a full blade of coal load under normal operating conditions.
6. Machine availability shall be calculated on daily basis, including Sundays and public holidays, as per the availability criteria specified in this scope of work.
7. Before commencement of each shift, the supervisor shall thoroughly inspect the bulldozer and submit the prescribed inspection checklist to the authorized Tata Power representative.
8. As required hours per week may be permitted for scheduled weekly maintenance, subject to mutual agreement and prior approval from Tata Power.
9. The contractor shall ensure machine availability on a 24×7 basis whenever required by Tata Power, including adequate arrangements for shift-wise manpower deployment. The normal operating requirement shall be 16 hours per day, with additional deployment as required by operational exigencies.
10. All breakdowns, repairs and maintenance activities shall be carried out by the contractor under its supervision and at its own cost.
11. The Contractor shall be entirely responsible for ensuring that all manpower and equipment deployed for the work comply with applicable statutory requirements, including labour laws, insurance, employee compensation, safety regulations, and all other mandatory legal and regulatory obligations. The Contractor shall ensure valid documentation and compliance throughout the contract period.
12. The contractor shall indemnify and keep Tata Power indemnified against claims, liabilities, damages or compensation arising out of accidents involving the contractor's employees or damage to the property of any person during execution of the contract, to the extent attributable to the contractor's acts, omissions or negligence and subject to applicable law.
13. The Contractor shall be responsible for completing all necessary formalities and obtaining valid Tata Power gate passes for both manpower and equipment/machinery before deployment at the site. The Contractor shall ensure compliance with all applicable Tata Power security, safety, and entry procedures.
14. The contractor shall make necessary transportation arrangements for its manpower, machinery, tools and maintenance equipment.
15. The contractor shall provide all required personal protective equipment (PPE) to its workforce, including safety shoes, uniforms, helmets, gloves, dust masks, safety belts and other safety equipment as applicable as per Tata Power policy.
16. The bulldozer operator shall carry out coal-handling and stockpile management activities strictly as per the instructions of the Tata Power CHP Shift In-charge.
17. Daily and monthly machine running-hour records, along with a detailed description of the activities performed, shall be maintained and submitted to Tata Power.
18. The bulldozer parking/shed area and its surrounding vicinity shall be maintained in a clean and orderly condition at all times.

19. Refueling shall be carried out by the contractor. Diesel shall be made available by Tata Power at the designated stockpile area in drums. The contractor shall arrange a suitable refueling pump fitted/provided with the machine for safe and efficient refueling.

3. Contractor's Responsibilities

- Provide a fully operational bulldozer in good working conditions.
- Provide a **trained and licensed operator** (unless otherwise stated).
- Ensure routine maintenance and servicing of the equipment during the rental period.
- Ensure the operator follows all site safety rules and environmental regulations.
- Replace the bulldozer/operator in case of breakdown.

4. Client/Company Responsibilities

- Tata Power provides fuel/diesel; contractor provides refueling arrangements.
- Supervise and coordinate daily work activities.
- Provide a safe and accessible working area.
- Pay the agreed monthly rental on time, as per the contract terms.

5. Duration of Work

- The contract shall remain valid for a period of three (03) years from the date of contract commencement/confirmation, as specified in the Purchase Order.

6. Safety and Compliance

- All work must comply with Tata Power safety standard, environmental, and labor regulations.
- Operator must wear PPE and follow company safety protocols.

7. Desired Performance Level:

The Contractor shall have to ensure deployment of manpower/Operator along with Bulldozer.

- The bulldozer shall be available on daily basis, including Sundays and holidays, or as directed by MTPS/CHP.
- The contractor shall ensure that the bulldozer is maintained in good operating condition and is capable of performing the assigned stockpile management and coal-handling activities efficiently.
- In case the bulldozer is unavailable due to breakdown, maintenance, operator absenteeism or any other reason attributable to the contractor, the unavailable period shall be considered while calculating monthly availability.
- Monthly payment shall be calculated on a pro-rata basis against actual available days, based on the total calendar days in the respective month.

3 TENDER FEE & TIMELINES:

a. Interested parties meeting the "Bidder Pre-Qualification Requirements" specified under point no. 4 in this document can request tender document and participate in the bidding process by submitting the Expression of Interest (EOI) Letter along with the Tender Fee Payment Details to the contact details mentioned below not later than the deadline specified below. Request for extension of EOI submission date will be not entertained.

b. **Interested bidders should submit the Expression of Interest (EOI) letter and tender fee payment details to below mentioned email addresses:**

- Mails shall be addressed to (To): premkumar@tatapower.com
- Must Mark a copy to (Cc): aseemkumar.joshi@tatapower.com

EOI/ requests without complete information and communication as above within deadline shall be liable to be rejected and will not be considered further.

c. Tender Fee, as indicated in the Table 1 above may be paid through **NEFT** as per details for payment of Tender Fee given in Table 2 below:

Table 2

Details for payment of Tender Fee:	
Bank details for submitting Tender fees through bank transfer / NEFT:	Beneficiary Name: TATA POWER CO LTD Bank Name: STATE BANK OF INDIA A/c no: 30545457373 IFS Code: SBIN0009995 A/c type: CURRENT ACCOUNT Branch Name & Address: CAG BRANCH, NEVILLE HOUSE, 23 J N HEREDIA MARG, BALLARD ESTATE, MUMBAI-400001
Deadline for tender fee payment and submission of EOI:	**28th Nov'26, CoB**

d. **Expression of Interest letter to be submitted along with tender fee payment details should include the following details:**

- A covering letter duly stamped and signed by an authorized signatory clearly indicating the Tender Reference number and your EOI to participate in the tendering process.
- Tender fee payment details / reference number (ensure that tender fee is received by us within specified deadline)
- Bidder to indicate authorized person name, contact number and e-mail id (mandatory) of the person to whom RFQ / tender and all other communications to be addressed for this tender.

e. Detailed Bid Document (also referred as RFQ) shall be issued through Tata Power e-tender portal (Ariba System) only to the parties submitting a valid EOI as per the terms mentioned in this document.

4 BIDDER PRE-QUALIFICATION REQUIREMENTS:

Interested parties to note that Bidder shall be required to fulfill the following bidder pre-qualification requirement / criteria to qualify for the subject work. Bidder will be required to submit relevant supporting documents to demonstrate their qualification during the bid submission stage against Tender document / RFQ and bidders not found meeting the pre-qualification requirements given below will be disqualified from the tender.

4.1 TECHNICAL REQUIREMENT:

a) The bidder must have a minimum of 03 (three) years of experience in supplying and deploying heavy earthmoving equipment in Thermal Power Plants or other reputed industrial plants.
b) The bidder shall submit copies of at least 03 (three) Purchase Orders/Work Orders for similar nature of work executed during the last 02 (two) years,
c) The bidder should preferably possess valid certifications for ISO 9001 (Quality Management System), ISO 14001 (Environmental Management System) and ISO 45001 (Occupational Health and Safety Management System). In case the bidder does not possess these certifications, an undertaking shall be submitted confirming willingness to obtain the required certifications within 02 (two) months from the award of the contract.

4.2 FINANCIAL REQUIREMENT:

Bidder / Tenderer should have minimum Average Annual Turn-over of Rs. 1 Crs (Indian Rupees One Crore only) during last 3 financial years **(Attach Turnover Certificate from Chartered Accountant (or) Balance sheet with P&L statement in this regard)**

It may be noted that the above requirements are minimum qualification criteria. However, Tata Power reserves its right to further assess the capabilities of the parties and reserves its rights to further shortlist, accept or reject any party without assigning any reason.

5 BID SECURITY / EMD:

Interested parties to note that Bidder will be required to furnish a Bid Security along with their Bid, in the format prescribed in Bid Document **in the form of Bank Guarantee or Demand Draft or RTGS**, for an amount as defined in the covering page of this notice document. Bids not accompanied by an acceptable Bid Security shall be rejected by the Owner as being non-responsive and returned to the bidder without being opened.

Interested parties to note that Bid Security is not required with the EOI and it is required to be submitted with the Bid only during Bid Submission stage once RFQ is released to the interested parties that have submitted a valid EOI.

6 BIDDING PROCESS:

Detailed Bid Document (also referred as RFQ) shall be issued through Tata Power e-tender portal (Ariba System) only to the parties that submitted a valid EOI as per terms mentioned in this document.

Bidder to note that commercials for subject tender may be conducted through e-auction. Detailed bidding and auction process shall be detailed in the RFQ / tender document.
