

Tata Power to develop 250 MW Solar Project in Gujarat

National, 26 July, 2019 – Tata Power, India's largest integrated power company, announced that Tata Power Renewable Energy Limited (TPREL), the Company's wholly owned subsidiary, has received a Letter of Award (LOA) from Gujarat Urja Vikas Nigam Limited (GUVNL) on 25th July 2019 to develop a 250 MW solar project in Dholera Solar Park of Gujarat. This capacity is in addition to 100 MW awarded by GUVNL earlier at Raghnesda Solar Park in May'19.

The energy will be supplied to GUVNL under a Power Purchase Agreement (PPA) valid for a period of 25 years from the scheduled commercial operation date. The Company has won this capacity in a bid announced by GUVNL in January 2019. The project has to be commissioned within 15 months from the date of execution of the PPA.

Speaking on this achievement, **Mr. Praveer Sinha, CEO & MD, Tata Power**, said, *"We are proud to announce that we have been awarded 250 MW Solar Project in Gujarat, and are thankful to the Government of Gujarat and the officials at GUVNL for this opportunity. We are delighted to contribute towards the realisation of our country's commitment towards clean and green energy through solar power generation."*

"With this win, we continue to demonstrate our strong commitment towards renewable energy as well as project development, engineering and execution capabilities. This is an important milestone in our endeavour to generate 35-40 per cent of Tata Power's total generation capacity from clean energy sources. We hope to continue to build on our capabilities, deliver over expectations and create high benchmarks all around." said **Mr. Ashish Khanna, President-Renewables, Tata Power**.

With this win, TPREL's capacity under implementation would become 650 MW which is in addition to Tata Power's operating capacity of 2,476 MW. The Plant is expected to generate 635 MUs of energy per year and will annually offset approximately 635 Million Kg of CO₂.

About Tata Power Renewable Energy Limited:

Tata Power's renewable operating capacity is 2476 MW comprising of 932 MW wind and 1544 MW solar capacity at utility scale located in the states of Maharashtra, Gujarat, Madhya Pradesh, Andhra Pradesh, Telangana, Punjab, Bihar, Tamil Nadu, Karnataka and Rajasthan. TPREL is a wholly owned subsidiary of Tata Power, and is Tata Power's primary investment vehicle for clean and renewable energy based power generation capacity. The company is also in the process of implementing 650 MW of renewable power projects at various locations on Greenfield basis. TPREL is seeking to grow its renewable portfolio in India and in select international markets through organic and inorganic opportunities. Visit us at www.tatapowerrenewables.com

About Tata Power:

Tata Power is India's largest integrated power company and, together with its subsidiaries & jointly controlled entities, has an installed capacity of 10,957 MW. A pioneer in the field, it has a presence across the entire power value chain: Generation of renewable as well as conventional power including hydro and thermal energy; transmission & distribution, trading and coal & freight logistics. With renewable energy assets in solar and wind accounting for 30% of the company's portfolio, Tata Power is a leader in clean energy generation. In line with the company's view on sustainable and clean energy development, Tata Power is steering the transformation of utilities to integrated solutions by looking at new business growth in EV charging & storage, distributed generation & rooftops, microgrids and home automation & smart meters.

It has successful public-private partnerships in generation, transmission & distribution in India namely: 'Tata Power Delhi Distribution Ltd.' with Delhi Vidyut Board for distribution in North Delhi; 'Tata Power Ajmer Distribution Ltd.' with Ajmer Vidyut Vitran Nigam Ltd. for distribution in Ajmer; 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi; 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology.

With growing international focus, Tata Power's global presence includes strategic investments in Indonesia through a 30% stake in the coal company PT Kaltim Prima Coal (KPC); 26% stake in mines at PT Baramulti Suksessarana Tbk (BSSR); in Singapore through Trust Energy Resources; in South Africa through a joint venture called 'Cennergji' to develop projects in sub-Sahara Africa; in Zambia through a 50:50 joint venture with ZESCO for 120 MW Hydro project; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 187 MW hydro project; in Bhutan through a hydro project in partnership with The Royal Government of Bhutan.

With its 103 years track record of technology leadership, project execution excellence, world-class safety processes, customer care and driving green initiatives, Tata Power is poised for multi-fold growth and committed to 'lighting up lives' for generations to come. Visit us at: www.tatapower.com
