MORE THAN 100 YEARS OF TECHNOLOGY LEADERSHIP

Tata Power, the pioneer in field of generation, transmission & distribution now offers innovative solutions in energy management. We are bringing a complete energy ecosystem to customers through EV charging and storage, distributed generation and rooftop, microgrids and smart meters. The next natural step is to bring home automation to customers. Tata Power EZ Home Solutions let you monitor any light or appliance in your home from anywhere.

OUR HOMES CAN EMPOWER US

Urban living is stressful. No wonder homemakers today are always on the lookout for technology that is easy and makes life comfortable. Home automation can be a great ally for such busy people. Thanks to automation, chores like waking up early to open the window curtain or making sure the AC is switched off from the main switch can be taken care of without hassle. Far from being a luxury, a home automation system like EZ Home has simply become 'the need of the hour'.

POWER IN YOUR HANDS

Tata Power EZ Home is a Home Automation Solutions that is easily installed and easily operated from your smartphone, through voice commands and through touch. Through these switches and accessories, you can turn any light or appliance in your home into a smart appliance that can be operated, scheduled and monitored from anywhere. They also provide an in-built overload protection feature.

Forgot to switch your geyser off? Switch it off from anywhere

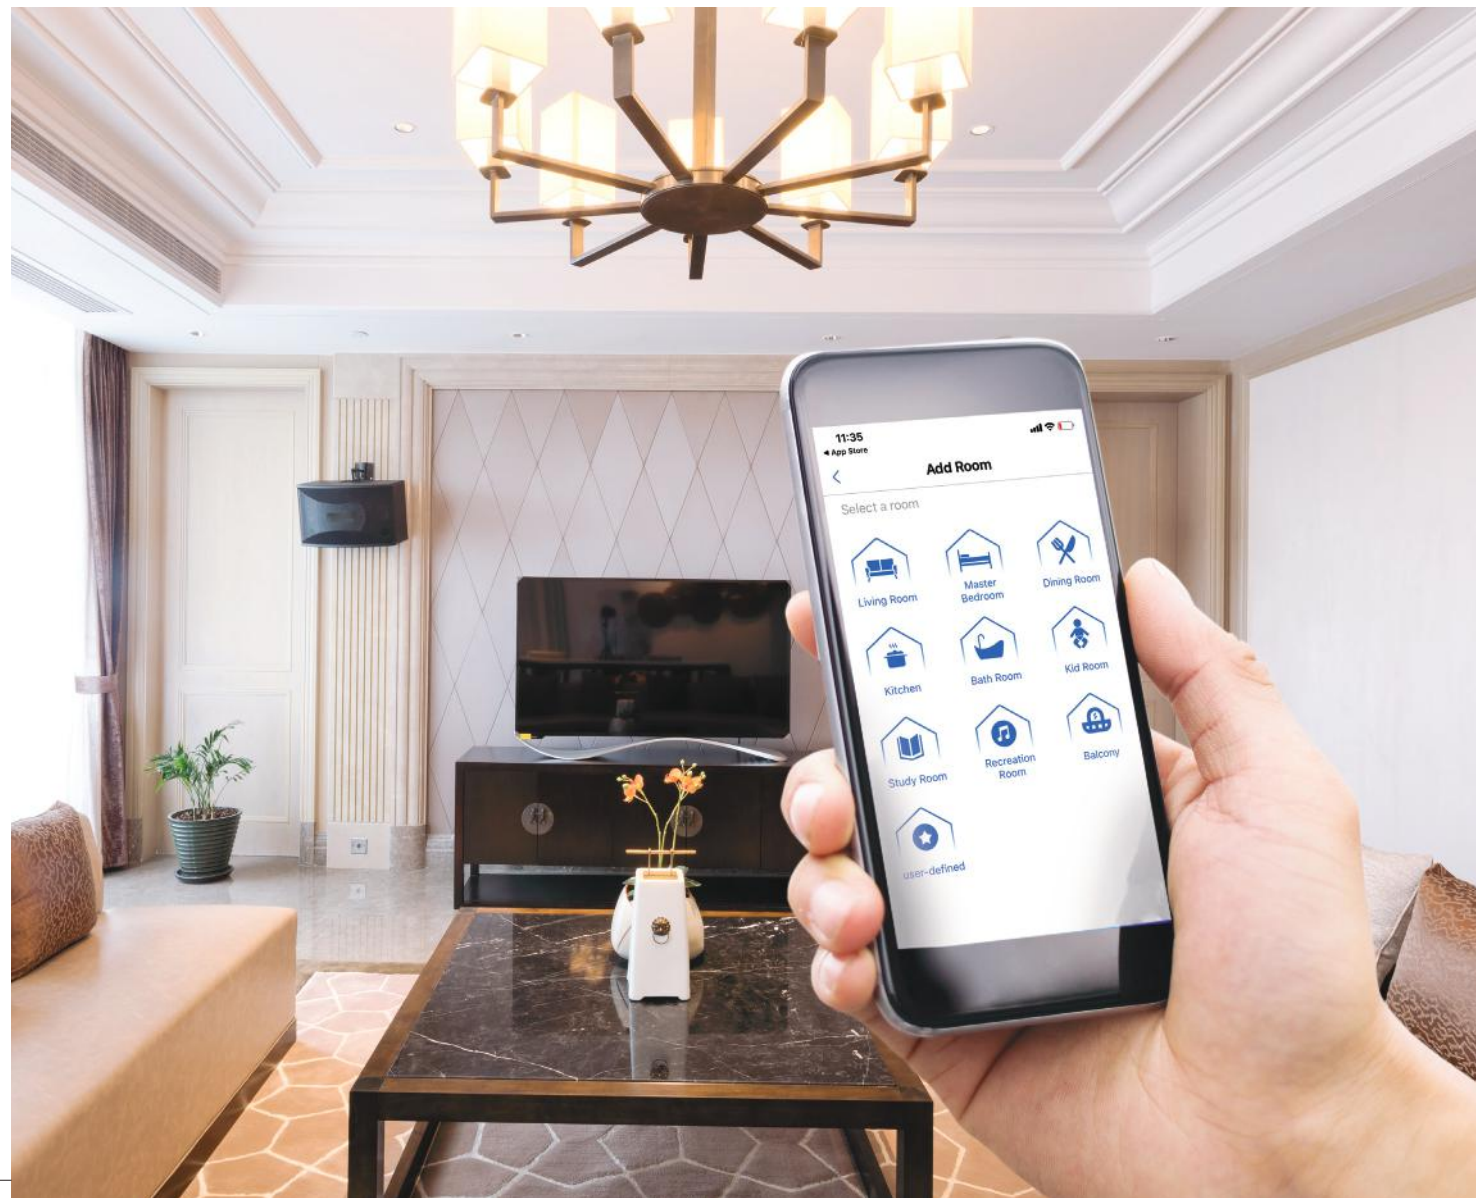

Want to switch your AC off early in the morning? Schedule it for 4 am everyday

Worried about power bills? Set a limit on your monthly consumption

Enjoy the sunrise in bedroom, schedule curtain to open at 6 am everyday

Create ambience for your movie time by dimming the lights

The power is in your hands with Tata Power EZ Home automation system

EASY TO INSTALL, EASY TO USE

EZ Home Switches are modular, retrofittable and easy to install with no requirement of extra wiring. In fact, it is so easy you can even DIY.

Product warranty of 2 years*

ENERGY SAVING

Save power thanks to unique in-built metering in our switches that allows you to track consumption for your appliances, room and home. And get to know when usage spikes.

CONVENIENCE

Don't ever get up again to switch on a light or a fan. Operate lights and appliances from Anywhere through your Smart phone.

VOICE ENABLED

Operate with our app or just give out voice commands with Alexa or Google Assistant. Or do it the conventional way through button or touch switch.

CONNECTIVITY

No internet? EZ Home switches still let you stay connected and can be operated with our mobile app. What's more, you can replicate any remote for AC, TV, set top box & more on your mobile.
