SERVICE YOU CAN TRUST

End-to-end after-sales service for complete assurance.

HOW ROOFTOP SOLAR WORKS

SOLAR PANELS

Capture sunlight from your rooftop.

SOLAR INVERTER

Sunlight becomes electricity through a solar inverter.

SOLAR HOME

Your home runs on solar power during the day.

Extra power goes back to the grid through net metering* or a solar battery, reducing your electricity bill.

Net metering benefits depend on DISCOM regulations

MONTHLY & YEARLY SAVINGS WITH 3 kW ROOFTOP SOLAR

System Size	Avg. Monthly Generation ¹	Electricity Rate ²	Estimated Monthly Savings ³	Annual Savings
3 kW	360 units	₹ 5/unit	₹ 1,800	₹ 21,600

1 - Based on 4 units/day/kW, varies with weather and location.

2 - ₹5/unit is an average residential slab rate across multiple Indian states.

3 - Actuals may vary

**₹78,000 central subsidy for 3 kW residential solar under PM Surya Ghar Yojana. Amount credited via National Portal post-installation. Additional state subsidies apply and as per local DISCOM/MNRE norms.
