WHAT OUR CUSTOMERS SAY

Agro-Processing | Gokak, Karnataka

Since installing our 125 kW system, electricity bills have dropped drastically. Tata Power Solarroof's after-sales service has been prompt and flawless with no technical issues so far.

— Sai Industries

Highlights:

Loan processing support, approx. 12,000 units generated in 3 months, reduction in ₹50-60K bills.

Textile | Palod, Gujarat

With 586 kW capacity, we now save over ₹5 lakh each month. A reliable and financially rewarding investment backed by professional staff.

— Keenara Industries

Highlights:

₹5-5.5 lakh/month savings, consistent 73,000 units/month output, since 2021

Steel | Belgaum, Karnataka

With solar, we save ₹6 lakh monthly covering 85% of our energy needs. The project was completed 15 days ahead of schedule.

— Vinayak Ispat

Highlights:

600 kWp system, fast delivery, 75,000 units/month generation, ₹7L bill reduced to ₹1L

WHY MORE BUSINESSES ARE SWITCHING TO SOLAR.

With rising electricity costs, growing operational expenses, and a stronger focus on sustainability, businesses are actively exploring smarter energy solutions. Rooftop solar transforms your unused roof into a long-term financial advantage.

Business Challenges	Solar Solutions with Tata Power Solarroof
⚠️ High monthly power bills	✅ Cut electricity costs up to 50%
⚠️ Capex constraints	✅ Easy financing and quick ROI
⚠️ ESG and compliance pressure	✅ Enhance sustainability reports instantly
⚠️ Complex installation	✅ End-to-end from India's most trusted EPC

KEY BENEFITS FOR YOUR BUSINESS

Tax-Optimised Investment:
Claim up to 40% depreciation in Year 1 — improving post-tax returns.

Green Energy. Stronger ESG Reports:
Every 100 kWp avoids ~115 tons of CO₂ annually — equivalent to planting 5,000 trees over 25 years.

Grid Independence Starts Here:
Reduce dependence on the grid and diesel — with solar that works silently in the background.

Operational Peace of Mind:
Once installed, systems need minimal maintenance. AMC options ensure peak output.

Boost Asset Value:
Solar boosts property utility and energy ratings with rooftop infrastructure.

Smart Savings, Nationwide Support
Cut Bills by 50%: Typical ROI in 4–5 years.
700+ Cities Served: National scale, local experts.

YOUR SOLAR JOURNEY SIMPLIFIED.

ENGINEERED FOR INDUSTRIAL NEEDS

- Rooftop Compatibility:** RCC, Metal Sheets, PEB Structures
- Heavy-Duty Structures:** Wind, seismic zone certified
- Industrial-Grade Components:** Inverters, Electrical Panels, DC and AC Cable
- Safety First:** Includes earthing, lightning protection, fire compliance, safety line walkways, handrails
- Quality Audit:** Stage-wise quality checks and pre-dispatch inspections

PERFORMANCE YOU CAN TRACK

- View real-time generation, consumption, and savings
- Reliable AMCs for Long-Term Growth

SUPPORT THAT SCALES WITH YOU

- Presence in 700+ cities via 600+ partners
- Multi-Location Projects: Unified planning, documentation & execution

BUILT FOR THE MOST DEMANDING INDUSTRIAL ENVIRONMENTS
