4. Our Independence, Ethical Requirements and Quality Control

Our team comprising multidisciplinary professional, have complied with independence policies of Deloitte Haskins and Sells LLP, which address the requirements of the International Federation of Accountants (the "IFAC") Code of Ethics for Professional Accountants in the role as independent auditors. We have complied with the relevant applicable requirements of the International Standard on Quality Control ("ISQC") 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

We also confirm that we have maintained our independence in the Report and there were no events or prohibited services related to the Assurance Engagement which could impair our independence.

5. Our Responsibility

Our responsibility is to express a limited assurance conclusion on GRI Standards Disclosures in the Report as described in the subject matter, based on the procedures we have performed and the evidence we have obtained. We conducted our limited assurance in accordance with International Standard on Assurance Engagement ISAE 3000 (Revised) Assurance Engagements Other than Audits or Reviews of Historical Financial Information ("ISAE 3000") issued by the IFAC. This standard requires us to comply with ethical requirements and to plan and perform our limited assurance engagement to obtain sufficient appropriate evidence about whether the GRI Standards Disclosures are free from material misstatement.

A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both risk assessment procedures, including an understanding of internal controls, and the procedures performed in response to the assessed risks. The procedures we performed were based on our professional judgment and included inquiries, observation of process followed, inspection of documents, analytical procedures, evaluating appropriateness of quantification methods, agreeing or reconciling with underlying data, etc.

In performing the procedures listed above, we:

- Interviewed key personnel including senior executives at respective plant locations of the Company / Subsidiaries in the Subject Matter paragraph and at the corporate office of the Company to understand the systems and processes in place for capturing sustainability performance data during the reporting period; and
- Desktop audit at the respective operational locations as specified in the Subject Matter in order to:
 - Test data, review of records and relevant documentation submitted by the Company of its locations and of its Subsidiaries as mentioned in Subject Matter paragraph as applicable, to arrive at the data presented in their Report; and
 - Analyse and review key data management systems, processes, procedures relating to collation, aggregation, validation and reporting of the select GRI Standards Disclosures for the locations as mentioned subject matter paragraph on a sample basis.

We have relied on the information, documents, records and explanations provided by the Company for the purpose of our review.

The procedures performed in a limited assurance engagement vary in nature from, and are less in

Deloitte Haskins & Sells LLP

extent than for, a reasonable assurance engagement. As a result, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Accordingly, we do not express a reasonable assurance opinion about whether the GRI Standards Disclosures have been presented, in all material respects, in accordance with management's basis of preparation and GRI Standards.

Further, a limited assurance engagement does not constitute an audit or review of any of the underlying information in accordance with International Standards on Auditing or International Standards on Review Engagements and accordingly, we do not express an audit opinion or review conclusion.

6. Our Conclusion

The procedures we have performed and the documents and records that were made available to us and the information and explanations provided to us by the Company in connection to the review of the select GRI Standards Disclosures as set out in the Subject Matter paragraph and disclosed in the Integrated Annual Report for the year ended March 31, 2022 provide an appropriate basis for our conclusion.

Based on the procedures performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the GRI Standards Disclosures set out in the Subject Matter paragraph for the year ended March 31, 2022, are not prepared, in all material respects, in accordance with the management's basis of preparation and with reference to the GRI Standards.

Other Matters

Our assurance scope excludes subsidiaries/ locations of the Company other than those mentioned in the Subject Matter paragraph. Our report does not extend to any disclosures or assertions relating to future performance plans and/or strategies disclosed in the reports. The maintenance and integrity of the Company's website is the responsibility of its management. Our procedures did not involve consideration of these matters and, accordingly we accept no responsibility for any changes to either the information on the website, the reports or our independent assurance report that may have occurred since the initial date of presentation.

Deloitte Haskins & Sells LLP

Restriction on use and distribution

Our work has been undertaken to enable us to express a limited assurance conclusion on the GRI Standards Disclosures as stated in subject matter paragraph, to the Management of the Company in accordance with the terms of our engagement, and for no other purpose. We do not accept or assume liability to any party other than the Company, for our work, for this Integrated Annual Report, or for the conclusion we have reached.
