

## Tata Power Solar Systems Limited receives 'Letter of Award' of INR 612 crore to set up 100MW ground mounted project for SJVN in Gujarat

**National, September 15, 2022:** Tata Power Solar Systems Limited (TPSSL), one of India's leading solar companies and 100% subsidiary of Tata Power Renewable Energy Limited (TPREL), received the 'Letter of Award' (LoA) of ₹ 612 crore for setting up a 100 MW ground-mounted solar project for SJVN Limited (SJVN).

SJVN is an Indian public sector undertaking having business interests in hydro, thermal, solar, wind and in Power Transmission & Power Trading. It is a joint venture between the Government of India and the Government of Himachal Pradesh. The bids for the project, located at the Raghanesda solar park plot C, Gujarat, were invited earlier this year.

The LoA was awarded through tariff-based competitive bidding. The project will get commissioned within 11 months from the date of receiving of LoA.

Speaking on the win, **Mr. Ashish Khanna, CEO, TPREL**, said, "We are glad to be associated with SJVN for setting up this 100MW landmark solar project in the ground-mounted segment. The project win further solidifies our expertise in developing and deploying large scale renewable projects for the public and corporate sector clients around the country."

TPSSL has commissioned several large scale solar ground-mounted projects in the country. TPSSL is a pioneer in curating customized strategic renewable projects and with this win its total portfolio will touch 9.9GWp. As on date, TPSSL's total order book stands at ₹ 15,520 crore.

### **About Tata Power Solar Systems Limited:**

TPSSL, with over 32 years of deep domain expertise is one of the pioneering solar manufacturers in the world and India's largest specialized EPC player. Founded in 1989, the company was originally formed as a joint venture between Tata Power and British Petroleum Solar (BP Solar). As a pioneer and market leader in the solar space, headquartered in Bangalore, TPSSL now operates independently as a wholly-owned subsidiary of TPREL.

As one of the largest solar manufacturers in India, TPSSL operates a world-class manufacturing unit in Bangalore, with a production capacity of 635MW of modules and 500 MW of cells. It has a portfolio of more than 9.9GWp of ground-mount utility-scale, over 1.2 GW of rooftop and distributed generation projects across the country, and has installed over 76,000 solar water pumps in India to date. It also offers a diverse line of solar solutions for both urban and rural markets – these include rooftop solutions, solar pumps, and power packs, among others. Tata Power Solar is committed to enabling solar everywhere and aims to provide energy access to millions of people across the country via its integrated solar solutions. ### **About Tata Power Renewable Energy Limited:**

“Tata Power Renewable Energy Limited (“TPREL”) is a subsidiary of The Tata Power Company Limited and is one of the most significant renewable players in the country. TPREL is a developer of renewable energy projects (including solar, wind, hybrid, round-the-clock (RTC), peak, floating solar, storage systems including battery storage) which it owns, operates and maintains. It also offers comprehensive green energy solutions for rural and urban areas like turnkey, EPC and O&M solutions for various business segments like utility scale projects, solar rooftop, and solar pump systems. Along with its extensive portfolio of renewable solutions, it has a state-of-the-art solar cell and module manufacturing plant of over 1 GW at Bengaluru and plans to set up a greenfield 4 GW solar cell and 4 GW solar module plant. In addition, TPREL also provides electric vehicle (EV) charging solutions across various segments and other advisory solutions across the renewable sector.

As of 31<sup>st</sup> August 2022, TPREL's total renewable utility capacity is 5,499 MW including 1,650 MW projects under various stages of implementation and its operational capacity is 3,849 MW which includes 2,921 MW solar and 928 MW wind.

Presently, the solar EPC portfolio is more than 9.9GWp of ground-mount utility-scale, over 1.2GW of rooftop and distributed ground mounted systems projects across the country and installation of over 76,000 solar water pumps in India to date.

TPREL aims to provide energy access to millions of people across the country via its integrated green energy solutions.”
