Dear Sirs,

Tata Power SED wins a prestigious Pilot Project Order from Ministry of Home Affairs for supply of Comprehensive Integrated Border Management System (CIBMS) to Border Security Force (BSF)

Tata Power's Strategic Engineering Division (Tata Power SED) has received an Order for a pilot project from Ministry of Home Affairs, Government of India for the supply of Comprehensive Integrated Border Management System (CIBMS) to Border Security Force (BSF). This order is an initial phase of the larger Border Management project of Ministry of Home Affairs to enable round the clock surveillance of Indian borders and to ensure every inch of Area of Interest is kept under vigil by our forces.

CIBMS being fielded by Tata Power SED is an indigenously designed and developed system. This will not only boost Government of India's 'Make in India' initiative, but also allow BSF to have in-country lifecycle support and upgrades. Furthermore, Tata Power SED will be in position to extend the system to all types of terrain as and when required by BSF on short timelines.

The Press Release to be issued by the Company is attached for your ready reference.

Yours faithfully,
For The Tata Power Company Limited

Company Secretary

Encl.

TATA POWER

Tata Power's Strategic Engineering Division (Tata Power SED) wins a prestigious Pilot Project Order from Ministry of Home Affairs for supply of Comprehensive Integrated Border Management System (CIBMS) to Border Security Force (BSF)

National, 21st June, 2017: Tata Power's Strategic Engineering Division (Tata Power SED) has received an Order for a pilot project from, Ministry of Home Affairs, Govt. of India for the supply of, **Comprehensive Integrated Border Management System (CIBMS) to Border Security Force (BSF)**. This Order is an initial phase of the larger Border Management project of Ministry of Home Affairs to enable round the clock surveillance of Indian Borders and to ensure every inch of Area of Interest is kept under vigil by our forces.

Comprehensive Integrated Border Management System (CIBMS) being fielded by Tata Power SED is an indigenously designed & developed System. This will not only boost Govt. of India's 'Make in India' initiative, but also allow BSF to have in-country lifecycle support & upgrades. Furthermore, Tata Power SED will be in position to extend the system to all types of terrain as and when required by BSF on short timelines.

CIBMS will establish a seamless multi-tier security ring at the border using a variety of sensors, to identify any infiltration attempts and will be operational 24x7x365. Sensors (viz. Thermal Imager, Radar, Aerostat with EO Payload, Optical Fibre Intrusion Detection System, Unattended Ground Sensor and Underwater Sensor) can detect threats not just on the surface but also underground and underwater. The Command and Control system processes data from each of these sensors and fuses them together forming a Common Operational Picture (COP) for timely Decision Assist to troops on the ground.

On receipt of the prestigious Order, Rahul Chaudhry, CEO of Tata Power SED said that *"We are committed to create an Indigenous solution meeting BSF's contextual and operational requirements for Indian Integrated Border Management System. We are already exporting our Optronics products with capabilities such as Data Analytics, Image Fusion, Remote Monitoring & Surveillance and Verifying Threat Identity etc., which will help us in deploying a reliable solution for BSF. It is with pride and dedication that we accept this challenge to secure our borders entrusted to us by MHA."*

About Tata Power SED:

The Tata Power Company Limited, Strategic Engineering Division (Tata Power SED) For close to four decade, has been a leading private-sector player in the indigenous Design, Development, Production, Integration, Supply and Life-cycle Support of mission critical Defence Systems of strategic importance. The Division has partnered the Ministry of Defence (MoD), the Armed Forces, DPSUs and DRDO in the development & supply of state-of- the-art Systems and emerged as a Prime Contractor to MoD for Indigenous Defence Production when it secured Orders for Pinaka Multi Barrel Rocket Launcher, Akash Army Launcher and Integrated EW System for the Indian Army and for the Akash Air Force Launcher, Air Defence and Modernisation of Airfield Infrastructure (MAFI) for the Indian Air Force and Electronic Warfare for Indian Army. The company is also down selected for the two Make programs of TCS (Tactical Communication System) and BMS (Battlefield Management System for Indian Army). About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of 10613 MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India with a clean energy portfolio of 3141 MW. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR"); in Singapore through Trust Energy Resources to securitize coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in sub-Sahara Africa; in Zambia through 50:50 joint venture with ZESCO for 120 MW Hydro which has become operational in 2016; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 187 MW hydro project and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come".
