Dear Sirs,

**Tata Power's Renewable capacity crosses 2000 MW
and green portfolio crosses 3000 MW mark**

Tata Power, today announced that its Renewable business registered a healthy profit while surpassing the 2000 MW operating capacity mark with another about 500 MW under construction. In keeping with its commitment to generate 30% to 40% power by 2025 through renewable sources of energy, the Company added 1350 MW of renewable capacity during the year thereby making it largest green portfolio company in India.

The Press Release to be issued by the Company is attached for your ready reference.

Yours faithfully,
For The Tata Power Company Limited

Company Secretary

Encl.

Tata Power's Renewable capacity crosses 2000 MW and green portfolio crosses 3000 MW mark

National, May 23rd, 2017: Tata Power, India's largest integrated power company announced that its Renewable business registered a healthy profit while surpassing the 2000 MW operating capacity mark with another about 500 MW under construction. In keeping with its commitment to generate 30% to 40% power by 2025 through renewable sources of energy, the Company added 1350 MW of renewable capacity during the year thereby making it largest green portfolio company in India.

Commenting on the Company's robust renewables business performance, **Mr. Anil Sardana, CEO & Managing Director, Tata Power** said, *"We are happy to announce that Tata Power has registered a strong growth in Renewables which is one of our key focus areas through our recent acquisition of solar assets. The Renewable Energy Business made a healthy contribution to PAT this year and we continue to be the largest renewable player in the country. The Company aims to pursue a well charted growth strategy by demonstrating a high level of commitment towards cleaner sources of generation thus increasing the share of non-fossil fuel based generation output to 30- 40% by 2025."*

Tata Power's non-fossil fuel based green generation portfolio (comprising of hydro, waste gas, solar & wind) crossed the 3000 mark and now stands at 3141 MW. During the financial year 2016-17, Tata Power's renewable arm Tata Power Renewable Energy Limited completed the acquisition of WREPL which had 1,140 MW of Renewable Power Projects. On the international front, Tata Power's South African Joint Venture Company, Cennerg, started Commercial Operations of both its wind farms totaling 230 MW; making its India's truly international power company.

The Company will continue to work towards ensuring its renewable business remains the largest renewable in the country.

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of 10613 MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India with a clean energy portfolio of 3141 MW. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR"); in Singapore through Trust Energy Resources to securitize coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennerg' to develop projects in sub-Sahara Africa; in Zambia through 50:50 joint venture with

for immediate use

PRESS RELEASE

ZESCO for 120 MW Hydro which has become operational in 2016; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 187 MW hydro project and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come".
