

Tata Power becomes the first power utility in Mumbai to offer Bill Payments at Vodafone Mini Stores

National, 7th August 2018: Tata Power, India's largest integrated power company is a pioneer in the application of innovation and technology for value added benefits to its customers. In line with this commitment, Tata Power has partnered with **Vodafone**, to facilitate bill payments for its consumers through the Vodafone M-Pesa e-wallet. This unique facility enables instant and easy cash payment of power supply bills by Tata Power consumers. This facility can be availed at all 150 plus conveniently located Vodafone Mini Stores across Mumbai.

In line with Government of India's initiative of Digital India, Tata Power Mumbai has partnered with Vodafone in Mumbai wherein consumers can transact and make bill payments from the convenience of their home/office/on-the-go thereby encouraging digital payment. Other than smart-phones, payment can be also be made digitally through the e-wallet using feature (non-smart) phones as well. Tata Power consumers can also walk-in into any of the Vodafone Mini Stores spread across Mumbai and present their bills and make cash payment at the counter.

Commenting on this development, **Mr. Praveer Sinha, CEO & MD, Tata Power**, said, *"We, at Tata Power are constantly working to harness the use of technology to improve our overall customer service and experience. With this, Tata Power will revolutionise electricity bill payments in the city by the addition of more payment avenues for the ease of consumers. This facilitate will provide safer payment options to the consumers and contribute to the financial inclusion in the country. Tata Power is confident that it will prove to be a great addition to their overall stakeholder experience and we will remain committed to enhancing ease of consumers for transacting with Tata Power."*

About Tata Power:

Tata Power is India's largest integrated power company and, together with its subsidiaries & jointly controlled entities, has an installed capacity of 10857 MW. A pioneer in the field, it has a presence across the entire power value chain: Generation of renewable as well as conventional power including hydro and thermal energy; transmission & distribution, trading and coal & freight logistics. With renewable energy assets in solar and wind accounting for 23% of the company's portfolio, Tata Power is a leader in clean energy generation.
