

Tata Power Renewable Energy Limited commissions 100 MW Solar Capacity in Anthapuramu Solar Park, Andhra Pradesh

~Stands at an overall renewable capacity of 2,215 MW in India~

National, July 2nd, 2018: Tata Power, India's largest integrated power company, today announced that its 100% subsidiary Tata Power Renewable Energy Ltd. (TPREL) commissioned 100 MW (50 MW x 2) solar capacity in Anthapuramu Solar Park, Andhra Pradesh. With this, the overall operating renewable capacity of TPREL now stands at 2,215 MW in India.

The sale of power from this solar plant has been tied up under a 25 year Power Purchase Agreement with Solar Energy Corporation of India (SECI). This is part of the implementation of the MNRE scheme for developing grid connected solar power capacity of Jawaharlal Nehru National Solar Mission (JNNSM) Phase II, Batch-III of the Government of India through Viability Gap Funding (VGF) Mode.

"Renewable energy is the future for 'New India' and will play a big role in providing the country "24X7 Power for All by 2019". For a tropical country like India, solar energy has the highest potential. Tata Power is focused to constantly proliferate the group's renewable energy portfolio and we plan to add around 1000 MW renewable energy capacity to our portfolio every year, scaling it to 45-50% in the next five years, largely through organic growth." **Mr Praveer Sinha, CEO & Managing Director, Tata Power.**

"The commissioning of 100 MW capacity in Anthapuramu has fortified our position as a leading renewable energy company in the country with a strong presence in solar power generation. We will continue to seek potential of sustainable growth in India and selected International geographies." **Mr. Ashish Khanna, President-Renewables, Tata Power** said.

The company has organically added 159 MW wind & solar capacity in FY17 along with the acquisition of Welspun Renewables Energy Pvt. Ltd. last year.

About Tata Power Renewable Energy Limited:

TPREL is a wholly owned subsidiary of Tata Power, and is Tata Power's primary investment vehicle for clean and renewable energy based power generation capacity. TPREL's present operating capacity is 2215 MW comprising of 931 MW wind and 1284 MW solar capacity located in the states of Maharashtra, Gujarat, Madhya Pradesh, Andhra Pradesh, Telangana, Punjab, Bihar, Tami Nadu, Karnataka and Rajasthan. The company is also in the process of implementing 121 MW of renewable power projects at various locations on Greenfield basis. In order to aggregate its clean and renewable energy portfolio, Tata Power has initiated the process of carving out its 380 MW clean energy assets from its books into TPREL. TPREL's portfolio grows to about 2.2 GW making it a leading Renewable Energy Company in India. TPREL is seeking to grow its renewable portfolio in India and in select international markets through organic and inorganic opportunities. Visit us at www.tatapowerrenewables.com

About Tata Power:

Tata Power is India's largest integrated power company and, together with its subsidiaries & jointly controlled entities, has an installed capacity of 10757 MW. A pioneer in the field, it has a presence across the entire power value chain: Generation of renewable as well as conventional power including hydro and thermal energy; transmission & distribution, trading and coal & freight logistics. With renewable energy assets in solar and wind accounting for 30% of the company's portfolio, Tata Power is a leader in clean energy generation. In line with the company's view on sustainable and clean energy development, Tata Power is steering the transformation of utilities to integrated solutions by looking at new business growth in EV charging & storage, distributed generation & rooftops, microgrids and home automation & smart meters.

It has successful public-private partnerships in generation, transmission & distribution in India namely: 'Tata Power Delhi Distribution Ltd.' with Delhi Vidyut Board for distribution in North Delhi; 'Tata Power Ajmer Distribution Ltd.' with Ajmer Vidyut Vitran Nigam Ltd. for distribution in Ajmer; 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi; 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology.

With growing international focus, Tata Power's global presence includes strategic investments in Indonesia through a 30% stake in the coal company PT Kaltim Prima Coal (KPC); 26% stake in mines at PT Baramulti Suksessarana Tbk (BSSR); in Singapore through Trust Energy Resources; in South Africa through a joint venture called 'Cennergii' to develop projects in sub-Saharan Africa; in Zambia through a 50:50 joint venture with ZESCO for 120 MW Hydro project; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 187 MW hydro project; in Bhutan through a hydro project in partnership with The Royal Government of Bhutan.

With its 103 years track record of technology leadership, project execution excellence, world-class safety processes, customer care and driving green initiatives, Tata Power is poised for multi-fold growth and committed to 'lighting up lives' for generations to come. Visit us at: www.tatapower.com
