Dear Sirs,

Press Release

In continuation of the Company's disclosure dated 5th July 2019, we forward herewith the Press Release issued by the Company today for sale of 50 MW solar power by Poolavadi Windfarm Limited, a 100 % subsidiary of the Tata Power Renewable Energy Limited (a wholly owned subsidiary of the Company), to NTT Com- Netmagic, under captive structure.

This is for your information.

Yours faithfully,
For The Tata Power Company Limited

Company Secretary

Encl.

NTT Com-Netmagic Partners with Tata Power to Build 50 MW Solar Power Project

- Project located in Maharashtra.
- Power generated expected to supply green energy to NTT-Netmagic's data centres across Maharashtra, India
- First of its kind initiative for data centre industry in India

National, 16th July, 2019 – NTT Com- **Netmagic**, a leading Managed Hosting and Multi-Cloud Hybrid IT solution provider in India, today announced a partnership with **Tata Power**, one of India's largest integrated Power Company, to build its first 50 MW Solar Photovoltaic (PV) power plant in Solapur, Maharashtra, India. This initiative enables NTT Com-Netmagic to meet the green energy needs and optimise operating costs.

This solar power project is aimed at reducing CO2 emission at an average by about 70,000 tonnes per annum, with the increased power and cooling demands of NTT Com-Netmagic's data centers in the city.

The power will be supplied through open access under a long-term power purchase agreement. Poolawadi Windfarm Limited, a subsidiary of Tata Power Renewable Energy Limited (TPREL) has signed definitive agreements to supply 50 MW solar power to NTT Com-Netmagic.

The capacity will be built in a phased manner with initial capacity of 35 MW increasing up to 50 MW within 24 months of initial commissioning of the plant.

*"We are extremely pleased to partner with Tata Power to bolster deeper adoption of sustainable and renewable sources of energy to provide reliable and consistent power supply to our clients," said **Sharad Sanghi, MD & CEO, NTT Com-Netmagic**. "This project epitomises our continued commitment to ensuring sustainable development of India's digital growth story. We have been also using renewable sources of energy, including wind and solar power plants in Bengaluru and Chennai through open access."*

Praveer Sinha, CEO & MD, Tata Power said, *"It's our constant endeavour to explore new opportunities across the country through various initiatives to provide reliable and sustainable renewable power. This is our first big initiative through a captive route and the company continues to build the foundation for a significant growth in renewables."*

NTT Com-Netmagic was recognized with the LEED PLATINUM certification from the Indian Green Building Council (IGBC) for its recently built Bangalore Data center (DC3) project. Also, the Company had received a Gold LEED certification for its data center in Chennai.

About NTT Communications Corporation:

NTT Communications solves the world's technology challenges by helping enterprises overcome complexity and risk in their ICT environments with managed IT infrastructure solutions. These solutions are backed by our worldwide infrastructure, including industry leading, global tier-1 public and private networks reaching over 190 countries/regions, and more than 400,000 m² of the world's most advanced datacenter facilities. Our global professional services teams provide consultation and architecture for the resiliency and security required for your business success, and our scale and global capabilities are unsurpassed. Combined with NTT Data, NTT Security, NTT DOCOMO and Dimension Data, we are NTT Group.
