

Tata Power receives 'Letter of Intent' from MAHAGENCO to supply 250 MW power in Maharashtra

National, India, 20th September , 2021: TP Saurya Limited (TPSL), a wholly owned subsidiary of Tata Power, received the 'Letter of Intent' (LoI) from Maharashtra State Power Generation Co. Ltd. (MAHAGENCO) for setting up of 250 MW Grid-Connected Solar Photovoltaic Power plant in Maharashtra. The project has been awarded to TPSL through Tariff-based competitive bidding followed by e-Reverse auction.

The Company has received this LoI in a bid announced by MAHAGENCO for setting up 250 MW Solar plant at the Dondaicha Solar Park in Dhule District of Maharashtra. Maharashtra State Electricity Distribution Company Limited (MSEDCL) has conveyed consent to purchase the power generated from this solar plant.

The solar plant project will be commissioned within 15 months from the date of PPA execution.

Speaking on the achievement, **Dr. Praveer Sinha, CEO & MD, Tata Power** said, "We are proud to win this large scale Grid-Connected Solar Photovoltaic EPC Power project. The project will further promote the share of renewable power in the overall energy mix in Maharashtra. We are one of the leaders in solar power and committed to usher in an era of clean energy in the country."

With this, the total renewable capacity of Tata Power will reach 4611 MW with an installed capacity of 2947 MW and 1664 MW under implementation.

About Tata Power:

Tata Power is one of India's largest integrated power companies and together with its subsidiaries and jointly controlled entities, has an installed / managed capacity of 13,061 MW. The Company has presence across the entire power value chain - generation of renewable as well as conventional power including hydro and thermal energy, transmission & distribution, coal & freight, logistics and trading. The company had developed the country's first Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. With 4.2 GW of clean energy generation from solar, wind, hydro and waste heat recovery accounting for 32% of the overall portfolio, the company is a leader in clean energy generation. It has successful public-private partnerships in generation, transmission & distribution in India viz: Powerlinks Transmission Ltd. with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi, Maithon Power Ltd. with Damodar Valley Corporation for a 1,050 MW Mega Power Project at Jharkhand. Tata Power is currently serving around 12 million consumers via its Discoms, under public-private partnership model viz Tata Power Delhi Distribution Ltd. with Government of Delhi in North Delhi; TP Northern Odisha Distribution Limited, TP Central Odisha Distribution Limited, TP Western Odisha Distribution Limited and TP Southern Odisha Distribution Limited with Government of Odisha. With a focus on sustainable and clean energy development, Tata Power is steering the transformation an integrated solutions providers by looking at new business growth in distributed generation through rooftop solar and micro grids, storage solutions, EV charging infrastructure, ESCO, home automation & smart meters et al. With its 107 years track record of technology advancements, project execution excellence, world-class safety processes, customer care and green initiatives, Tata Power is well poised for multi-fold growth and is committed to lighting up lives for generations to come.
