

Tata Power and Rustomjee Group collaborate to set up EV Charging infrastructure across Mumbai Metropolitan Region

~Partnership to support Maharashtra Government's plans to aggressively develop EV charging infrastructure in the state~

~28 EZ Charging points to be set up at Rustomjee Groups' residential and commercial projects~

Mumbai, 28th March, 2022: Tata Power, one of India's largest electric vehicle charging solutions providers has collaborated with Rustomjee Group, the leading real estate developer, to provide end-to-end EV charging solutions across all its residential and commercial projects in Mumbai Metropolitan Region (MMR).

Under this collaboration, Tata Power will install dedicated charging infrastructure for residents of Rustomjee in Mumbai MMR. EV owners will have the access to a 24x7 charging facility along with maintenance support. Customers can connect through the Tata Power EZ Charge mobile application for all services including remote vehicle charging monitoring & e-payments. The partnership will enable Rustomjee residents' access to a uniform and ubiquitous EV charging experience.

This customized EV charging solutions form the infrastructure backbone for a growing EV ecosystem and provide customers access to energy-efficient options with ease. The company through its Tata Power EZ Charge offering has already set up over 100 EV charging points in Mumbai and over 1300 charging points across the country.

Talking about the collaboration, **Mr. Sandeep Bangia, Head- EV, Tata Power** said, "*We are happy to partner with Rustomjee Group and feel our collaboration will hasten the transition to EV adoption in Mumbai. It's a step towards decarbonizing the transportation sector and making EVs more mainstream.*"

Mr. Haroon Siddiqui, Vice-President – Corporate Head, MEP, Rustomjee Group, said, "*At Rustomjee, we are always looking at working towards building a sustainable society for all of us to co-exist in, this collaboration is yet another step in that direction. We are happy to collaborate with Tata Power and work towards co-creating a better future for all of us. This association is a small step towards the larger goal of a carbon-free tomorrow.*"

Tata Power has been rapidly setting up EV charging infrastructure across the country, helping India adopt environment-friendly mobility. The company already has a partnership with Apollo Tyres, HPCL, TVS Motors, amã Stays & Trails and others to set up and enhance the EV charging infrastructure. The company has deployed over 1300 EV charging points across different cities under the EZ Charge brand along with a digital platform to facilitate an easy & smooth customer experience.

The Rustomjee Group has delivered 20 million sq. ft. of space, 280+ buildings and 14,000+ homes. Through all its endeavors and projects, Rustomjee is committed to building a better tomorrow.

It is noteworthy here that road transport is one of the largest contributors to global carbon emissions. With vehicular emissions being a growing source of pollution in Maharashtra, the Government of Maharashtra recently announced its plans to aggressively develop EV charging infrastructure in the state. This partnership will certainly play a major role in fulfilling the Government's agenda of decarbonizing transportation in the state.

About Rustomjee:

Rustomjee Group has carved a niche in the ever-growing real estate sector, with a development portfolio of 20 million square feet of completed projects, 9.2 million square feet of ongoing development and 16.4 million square feet of planned development spanning across the Mumbai Metropolitan Region.

Rustomjee Group ensures that every development blueprint includes child-friendly spaces, parks, playgrounds and learning rooms developed in collaboration with eminent child psychologists and trained specialists.

About Tata Power:

Tata Power (NSE: TATA POWER; BSE: 500400) is one of India's largest integrated power companies and together with its subsidiaries and jointly controlled entities, has an installed/managed capacity of 13,171 MW. The Company is India's most progressive green energy brand, with operations across the entire power value chain - generation of renewable as well as conventional power including hydro and thermal energy, transmission & distribution, coal & freight, logistics, and trading.

The Company had developed the country's first Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. With 4.3 GW of clean energy generation from solar, wind, hydro, and waste heat recovery accounting for 33% of the overall portfolio, the company is a leader in clean energy generation.

It has successful public-private partnerships in generation, transmission & distribution in India viz: Powerlink's Transmission Ltd. with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi, Maithon Power Ltd. with Damodar Valley Corporation for a 1,050 MW Mega Power Project at Jharkhand.

Tata Power is currently serving more than 12 million consumers via its Discoms, under public-private partnership model viz Tata Power Delhi Distribution Ltd. with Government of Delhi in North Delhi, TP Northern Odisha Distribution Limited, TP Central Odisha Distribution Limited, TP Western Odisha Distribution Limited, and TP Southern Odisha Distribution Limited with Government of Odisha.

With a focus on sustainable and clean energy development, Tata Power is steering the transformation as an integrated solutions provider by looking at new business growth in distributed generation through rooftop solar and microgrids, storage solutions, EV charging infrastructure, ESCO, home automation & smart meters et al.

With its 107 years track record of technology advancements, project execution excellence, world-class safety processes, customer care, and green initiatives, Tata Power is well poised for multi-fold growth and is committed to lighting up lives for generations to come.
