

Tata Power Renewables Commissions 120MW solar project in Masenka, Gujarat

National, 4th May, 2022: Tata Power Renewable Energy Limited (TPREL), a 100% subsidiary of Tata Power has commissioned 120MW solar project in Masenka, Gujarat.

The landmark project will produce 305247 MWh annually for Gujarat Government (GUVNL). In the installation, approximately 3.81 lakhs modules were used and the project will reduce up to 1.03 lakh ton CO2 annually. A thin-film glass on glass modules of various wattages and harnesses of capacity 440Wp to 460Wp have been used in the project. .

Speaking on the project commissioning, Dr. Praveer Sinha, CEO&MD, Tata Power said "We are proud to announce the commissioning of the 120 MW solar project at Masenka, Gujarat within a short span of five months. We have solidified our position as a major renewable energy player with unmatched prowess across the solar EPC value chain and are committed to continuing our steadfast efforts to help India achieve its clean energy goals."

With this addition of 120 MW, the renewables capacity in operation for Tata Power now stands at 3,520 MW with 2,588 MW of Solar and 932 MW of Wind.

"Renewable energy is the future. Every project Tata Power Renewables executes further fortifies our position as one of the leading renewable energy players in the country. Our expert project execution team comes with significant experience in handling unique and demanding projects. Hence, we see each challenge as new learning to push our boundaries. We feel proud to commission the 120MW project at Masenka, Gujarat as it reasserts our commitment to a sustainable tomorrow." added Mr. Ashish Khanna, President – Renewables, Tata Power.

Tata Power's total Renewable capacity is 4,920 MW including 1,400 MW of Renewable projects under various stages of implementation.

About Tata Power:

Tata Power (NSE: TATAPOWER; BSE: 500400) is one of India's largest integrated power companies and together with its subsidiaries and jointly controlled entities, has an installed/managed capacity of 13,635 MW. The Company has a presence across the entire power value chain - generation of renewable as well as conventional power including hydro and thermal energy, transmission & distribution, coal & freight, logistics, and trading.

The Company had developed the country's first Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. With 4.8 GW of clean energy generation from solar, wind, hydro, and waste heat recovery accounting for 35% of the overall portfolio, the company is a leader in clean energy generation.

It has successful public-private partnerships in generation, transmission & distribution in India viz: Powerlinks Transmission Ltd. with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi, Maithon Power Ltd. with Damodar Valley Corporation for a 1,050 MW Mega Power Project at Jharkhand.

Tata Power is currently serving more than 12 million consumers via its Discoms, under public-private partnership model viz Tata Power Delhi Distribution Ltd. with Government of Delhi in North Delhi, TP Northern Odisha Distribution Limited, TP Central Odisha Distribution Limited, TP Western Odisha Distribution Limited, and TP Southern Odisha Distribution Limited with Government of Odisha.

With a focus on sustainable and clean energy development, Tata Power is steering the transformation an integrated solutions providers by looking at new business growth in distributed generation through rooftop solar and microgrids, storage solutions, EV charging infrastructure, ESCO, home automation & smart meters et al.

With its 107 years track record of technology advancements, project execution excellence, world-class safety processes, customer care, and green initiatives, Tata Power is well poised for multi-fold growth and is committed to lighting up lives for generations to come.
