# 5G-first key, but 4G phones not off the table, says Samsung's Pullan

JATIN GROVER  
New Delhi, June 6

**AS SAMSUNG ON** Tuesday launched the year's tenth 5G smartphone, the company said its 5G-first strategy is key for growth in the country. But it has not ruled out its focus on smartphone portfolio in other technologies like 4G and below ₹10,000 range.

"Samsung is a full range player, we have got products from ₹7,000 onwards. We have the largest portfolio of 4G phones under ₹13,000. We believe that if we are able to give consumers the right experience at various price points, they will continue to keep upgrading to the next generation (technology) as time passes," Raju Pullan, senior VP, mobile business, Samsung India, told FE.

"We would like to be available across all technologies, but our strategy in India is a 5G-first strategy," Pullan said, adding that the company's financing scheme is one of the key factors that is driving the affordability of 5G smartphones.

Apart from the ten 5G smartphones, Samsung has also launched five 4G ones this year so far. The company's latest phone in the 4G segment was Galaxy A14 4G, whereas in 5G,

There's an installed base of 650 million smartphones in the country. We are seeing a lot of consumers upgrading to 5G.

Tailwinds are very strong. It will help us consolidate our leadership across form factors and across our portfolio.

**RAJU PULLAN, SENIOR VICE PRESIDENT, MOBILE BUSINESS, SAMSUNG INDIA**

the company on Tuesday launched Galaxy F54 at an introductory price of ₹27,999.

When asked about whether the market of 4G phones will diminish completely soon, Pullan said, "As India has the world's largest population, we feel that there is space for all technologies, but contributions can change. Consumers can keep upgrading and that is the route that we are looking at."

In January-March, Samsung maintained its top position in the smartphone market in India with a 20% share. In 5G, too, the company's market share at 24% is the highest among all brands. "We have seen a very strong double-digit growth, which is helping us consolidate our position. Even in 5G, as per analysts, we have had very strong share gains in April as

well," Pullan said.

"Tailwinds are very strong for Samsung, which will help us consolidate our leadership across form factors and across our portfolio," Pullan said, adding that more product launches and financing schemes are key for Samsung's growth.

The starting price of a Samsung 5G phone is around ₹14,000 at present.

Last year, the company had launched 13 smartphone models of 5G and this year, it has launched 10 smartphones models in just five months.

Samsung is also strengthening its retail stores presence in the country. The company will open 15 experience stores across Delhi, Mumbai, Bengaluru, Hyderabad, Chennai, Kolkata, Ahmedabad, etc.

"We have to invest in India, so that we are able to give better experience to the consumers and upgrade the lifestyle of consumers in India," Pullan said.

In 2022, Samsung's smartphone business grew by over 20%, which was the fastest growth in the last four years. For Samsung, 5G smartphones contributed 61% to its overall smartphone business last year, higher than industry average of 56%, the company had said in January.

# Revival plan: Go First told to submit financial details

ROHIT VAID  
New Delhi, June 6

**THE DIRECTORATE GENERAL** of Civil Aviation (DGCA), which is examining Go First's plans to restart operations, has sought financial details relating to its liabilities, contracts as well as availability of working capital, sources told FE.

FE had reported, on June 2, that the interim resolution professional (IRP) of Go First has submitted a six-month revival plan to the DGCA, stating that it's ready to resume operations with 26 operational aircraft and 400 pilots on its rolls.

This is the second instance of DGCA seeking clarifications after the submission of the revival plan, to ascertain whether the airline is in a position to resume operations.

Last week, Go First in its first set of clarifications to the regulator had said that it has

## FLIGHT STATUS

- Details of Go First's liabilities, contracts and availability of working capital required
- IRP has submitted six-month revival plan to the DGCA, stating it's flight-ready
- Go First has 26 operational aircraft in its fleet and 400 pilots on its rolls
- Flight operations halted till June 9

working capital to pay employees' salaries and charges for fuel, parking, housing and landing charges for a six-month period.

After going through Go First's initial replies on its operational preparedness, DGCA on Tuesday sought more details.

Besides, the regulator has asked the ailing airline whether its lenders are willing to disburse the ₹208 crore that the airline has got under the Emergency Credit Line Guarantee Scheme (ECLGS). The airline is banking on restarting its operations through ₹200 crore and is also trying to raise another ₹200 crore.

The DGCA has also sought details on the constitution of the committee of creditors (CoC) of the airline.

Go First has committed a default of ₹2,660 crore toward aircraft lessors and ₹1,202 crore towards its vendors.

The total liabilities of the airline are ₹11,463 crore, of which bank dues are of ₹6,521 crore. Of this, ₹1,300 crore has been drawn under the government's ECLGS.

The airline had halted flight operations on May 3. The same has been extended June 9.

The main challenge before the airline is to retain its aircraft as lessors have approached the DGCA to deregister 45 of them. Though NCLT and National Company Law Appellate Tribunal have for now rejected the plea, lessors have moved the Delhi High Court. The airline has a fleet strength of 54, of which 28 aircraft are grounded due to engine issues with Pratt & Whitney, and 26 are operational.

In an unrelated development, the low-cost airline on Tuesday paid the May salaries to its pilots.

# Enzene's biosimilar cancer drug may be cheaper by around 50%

GEETA NAIR  
Pune, June 6

**BIOTECHNOLOGY COMPANY** ENZENE Biosciences has launched an affordable biosimilar Cetuximab cancer drug. The drug is likely to be cheaper by around 50% and more accessible in the country for the treatment of head, neck and metastatic colorectal cancer.

The key to cost reduction is Enzene's patented continuous manufacturing technology. "Continuous manufacturing can give 10 times higher volumetric productivity cutting down costs of products more

**From around ₹1-1.5 lakh, the drug could be offered at ₹50,000 per dose. Marketed by Lupin and Alkem, the cost will be around ₹10,000 per vial**

than 50%, which is a huge advantage for biosimilars and it is the reason Enzene is succeeding in this space," Himanshu Gadgil, CEO and whole-time director, Enzene said.

These drugs are expensive and by reducing the cost of manufacturing they could

Gadgil said head and neck cancer presents a significant public health challenge in the country, with a staggering annual incidence of over 1,00,000 new cases and five lakh active cases. This malignancy affects critical regions of the head and neck, including the oral cavity, pharynx, larynx and sinuses. This cancer is more prevalent in the lower socioeconomic strata because of tobacco and alcohol consumption.

Enzene, a biotech subsidiary of Alkem Laboratories based in Pune, is focused on biosimilars, phytopharma, peptide and regenerative business. It has a mammalian manufacturing unit in Chakan, a microbial manufacturing unit in Bhosari and an R&D centre in Pune.

# Blue Energy Motors to roll out 2,000 LNG trucks in FY24

GEETA NAIR  
Pune, June 6

**BLUE ENERGY MOTORS** will be selling 2,000 units of its LNG-powered trucks in the country in FY24. CEO Anirudh Bhuwalka said the company has a robust order book and depending on the number of fuel pumps going live, roll out of vehicles from the plant in Chakan, Pune, is likely.

Blue Energy has an installed capacity of 10,000 units per year. There is good interest from all major industrial conglomerates from cement, steel and other sectors to become part of the green trucking revolution, and based on the current interest levels, they were looking at 2,000 units plus rollout for FY24.

The company recently rolled out and invoiced 100 trucks, which have been deployed in the 500 km radius of the three LNG pumps that were functional in Nagpur, Wani and Vadodara.

# Ontario to invest ₹750 cr to double Sahyadri beds

GEETA NAIR  
Pune, June 6

**THE ONTARIO TEACHERS'** Pension Plan Board (Ontario Teachers') will invest ₹750 crore to double Sahyadri Hospital chain's hospital beds.

At present, Sahyadri has 1,021 beds with eight hospitals in Maharashtra. It is also among the largest transplant centres in the country with 1,200 cumulative transplants of liver, heart and kidney with plans to add lung and intestine transplants soon. The global investor had acquired an over 90% stake in Sahyadri, the largest hospital chain in Maharashtra, for around ₹2,500-2,700 last year.

The majority stake acquisition came after Everstone Group exited the chain in 2022. Sahyadri was the Canadian investor's first control private equity buyout in India. Ontario Teachers has more than \$3 billion invested in India and opened its office in Mumbai in September 2022.

# AlgoAnalytics, NTT tie up for AI, quantum computing

GEETA NAIR  
Pune, June 6

**JAPANESE IT COMPANY** NTT Data Intellilink has entered into a capital and business alliance agreement with AlgoAnalytics, an Indian AI startup, to expand R&D in large-scale language models, quantum computing and develop digital twin computing.

NTT Data Intellilink, which is a 100% subsidiary of NTT Data Corporation, has been collaborating with AlgoAnalytics on projects prior to the investment, with the latter implementing 50 R&D projects and customer projects for Tokyo-based company over the past five years.

Aniruddha Pant, CEO, AlgoAnalytics, said NTT has picked up a small strategic minority stake in his company but more than the investment it was an opportunity to work with NTT companies and their customers across the globe. They are now part of the NTT family, Pant said. Apart from the investment, work done for NTT would translate into revenues for AlgoAnalytics, he added.

Earlier, R&D money was going into these emerging technologies such as quantum computing but now end users are willing to work with companies like NTT to leverage these technologies. And with NTT having a bunch of customers globally, they are going to be early adopters of the emerging technologies like large language models (LLM), Pant said.

AlgoAnalytics is a small company working in niche areas and emerging technologies that will scale up in the next few years, he said. "Even prior to the widespread popularity of ChatGPT, the data science community was already captivated by the potential of LLMs."

# University of Mumbai gets vice-chancellor after nine months

PALLAVI SMART  
MUMBAI, JUNE 6

NINE MONTHS after Dr. Suhās Pednekar stepped down from the post of Vice Chancellor of University of Mumbai, Maharashtra Governor Ramesh Bais appointed Dr Ravindra Dattatray Kulkarni as the VC of the varsity on Tuesday.

Previously, Kulkarni also served as the Pro-Vice-Chancellor of Mumbai University. A list with five final names, including that of Dr. Kulkarni, was submitted to Maharashtra Governor Ramesh Bais on May 19, the day when 20 shortlisted candidates were interviewed by the Mumbai University VC-search committee headed by former chairman of the University Grants Commission (UGC) D.P. Singh. The delay in final announcement by the Governor led many to wonder when the varsity will finally get a Vice Chancellor.

The Maharashtra Governor, in his capacity of chancellor to all state universities, announced the much awaited appointments on Tuesday. The University of Mumbai will now finally have a full-time VC, after Dr. Suhās Pednekar stepped down from the post in September 2022.

Kulkarni is a senior professor at the Institute of Chemical Technology (ICT) in department of Oils, Oleochemicals and Surfactants Technology.

Responding to his appointment as VC for University of Mumbai, Dr. Kulkarni said, "I am humbled. I accept the position with all humility. It is a post of responsibility and I am aware of the rich heritage and legacy of the University of Mumbai. This is a challenging time of transition and we are well aware of the exceptions of all the stakeholders."

Speaking about his term as a Pro Vice-Chancellor during the Dr Pednekar's tenure as VC of

Dr Ravindra Dattatray Kulkarni. Express

Mumbai University, Dr Kulkarni said, "As a Pro Vice Chancellor, all teaching and non-teaching colleagues as well as principals of affiliated colleges had always cooperated. I request the same cooperation in future as well. It is a tremendous responsibility and great opportunity to contribute to the best cause of education and in the best interests of the University."

With an overall experience of almost 30 years and close to 13 years as a professor, Dr. Kulkarni has seven patents under his name. He was a gold medalist at the Rashtrasant Tukdoji Maharaj Nagpur University in 1993 when he was awarded M. Tech. in Studies in Sorboalkyds. Apart from having a long list of industry consultancy projects associated with him, Dr. Kulkarni also has close to eight research papers published in his name.

Kulkarni will take charge of the position at a crucial time when the university is in the midst of conducting exams and declaring results in time. Simultaneously, there is confusion over converting degree programmes from three-year to four-year tenure as recommended by the new National Education Policy (NEP), 2020. Recently, the Governor of Maharashtra had announced that Vice Chancellors of the varsities

will be held responsible for delays in results. Thanks to his tenure as Pro-Vice Chancellor at the Mumbai University, Dr. Kulkarni is well aware of the challenges. Incidentally, during his tenure as Pro-VC for Mumbai University, Dr. Kulkarni also headed the 21-member state-level committee formed to create a plan for transition of degree courses from existing duration of three years to four years starting from the 2023-24 academic year in June.

Talking about his excellent research work in the field of oleochemicals, VC of ICT Dr. Aniruddha Pandit, said, "The research in ICT is going to have a big setback with Professor Kulkarni taking up the post of VC at the University of Mumbai. At the same time, his organic association with ICT will continue. His research work and interaction with PhD students and faculty will continue to strengthen the oleochemicals department of ICT."

Meanwhile, Mumbai University declared the results of Bachelor of Commerce (B.Com.) semester VI examination. A total of 60,285 students appeared for this exam and 15,346 passed it, recording a pass percentage of 38.32. While 24,701 students failed the exam, 3,069 candidates were absent. Total 245 results are reserved due to copy-cases.

## Savitribai Phule Pune University gets new VC

Dr. Suresh Wamangir Gosavi has been appointed as the Vice-Chancellor of Savitribai Phule Pune University (SPPU), which has been waiting for a full-time VC for almost a year. Dr. Suresh Gosavi is a senior professor at the Department of Physics at SPPU.

Dr. Sanjay Ghanshyam Bhavne has been appointed as the new Vice-Chancellor of Dr. Balasaheb Sawant Konkan Krishi Vidyapeeth Dapoli. Dr. Sanjay Bhavne is the HOD of agricultural botany at the same university.

# Shivaji war memorial will come up in Gorai, says Prabhat Lodha

VALLABH OZARKAR  
MUMBAI, JUNE 6

THE MAHARASHTRA tourism department will set up a War Art Memorial of Chhatrapati Shivaji Maharaj at a plot of the Maharashtra Tourism Development Corporation (MTDC) in Gorai of North Mumbai, Tourism Minister Mangal Prabhat Lodha said Tuesday.

The museum will come up on 136 acres of land with a fund of Rs 50 crore announced by the state government in the budget presented this year.

The minister also said that the state government has launched a special drive to remove unauthorised constructions on government lands in Mumbai.

"Encroachment on the site of Maharashtra Tourism Development Corporation in Gorai has been removed today. A war museum will be set up at the plot where the war skills and armor of Chhatrapati Shivaji Maharaj will be displayed so that future generations can experience the glorious history of Chhatrapati Shivaji and take inspiration from it," Lodha said adding work will start at the earliest.

A decision on this was taken by the tourism department on Monday during a meeting or-

ganised at the Mantralaya. According to officials, the museum will also have replicas of Shivaji Maharaj's various forts, mainly sea forts, and will also showcase the information of war skills of Shivaji. Information

on guerilla warfare along with Shivaji Maharaj's various battles will also be on display at the museum.

"The design will be finalised soon and work will begin as soon as possible," the official said.

# Woman siphons off Rs 94 lakh from her employer's accounts over 11 yrs, booked

VIJAY KUMAR YADAV  
MUMBAI, JUNE 6

THE BANGUR Nagar police booked a woman for allegedly siphoning off Rs 94.54 lakh from her employer's company accounts over a period of 11 years.

Police said the accused woman transferred money to her own account and that of her family members in the name of sending salaries to employees of the companies owned by the complainant.

According to police, complainant Tukaram Mahadev Suryavanshi retired as a subedar from the Indian Army in 1997.

In 2007, he opened a private security company 'Infantry Securities and Facilities', which is into providing security services to private companies and government offices. Four years later, Suryavanshi hired the accused woman, identified as Vaishali Vichare, for accounts related work. In 2012, Suryavanshi's son Pratik also opened a security company 'Battalion Infra Managers' in Pune.

Police said all the finance-related work of the two companies was being done by Vichare from Mumbai. Vichare was entrusted with the responsibility of maintaining accounts of the companies, disbursing salaries to the guards and other employees and other finance-related works since 2011.

"Every month, salaries of the security guards and other staff of the two companies would amount to somewhere between Rs 90 lakh and Rs 1 crore. Vichare used to cleverly siphon off Rs 1

The woman got the money transferred to her own account in the name of sending salaries to employees of the companies owned by the complainant.

lakh to Rs 1.5 lakh and transfer it to her own account and that of her husband and brother," said the complainant in the FIR.

Suryavanshi also alleged that she used the names of former guards to siphon off money. But, details of transactions provided by the bank exposed her fraud, alleged the complainant.

The complainant learnt about the financial irregularities in his companies in April last year. When confronted, Vichare admitted to have indulged in the wrong practices and promised to return all the money, said a police officer.

Police said she has returned Rs 29 lakh till date, but two cheques—each bearing an amount of Rs 25 lakh—given by her to the complainant were dishonoured by the bank due to insufficient funds in the account, said the officer. This is when Suryavanshi realised that Vichare had no intention to return the remaining amount of Rs 65,54,099. He approached the police and filed a complaint.

Senior inspector of Bangur Nagar police station Pramod Tawade said, "We have registered a case under sections 406 (criminal breach of trust), 408 (criminal breach of trust by an employee) and 420 (cheating) of the IPC against the woman."
