## Tata Power EV Charging Solutions Limited joins hands with VE Commercial Vehicles to Accelerate Electric Mobility

- VE Commercial Vehicles is a leading manufacturer with a broad range of electric trucks & buses
- Collaboration to help transform India's commercial mobility landscape

**Mumbai, September 29, 2025:** Tata Power EV Charging Solutions Limited (TPEVCSL), a subsidiary of Tata Power Renewable Energy Limited (a subsidiary of The Tata Power Company Limited), and VE Commercial Vehicles Limited (VECV) today announced a landmark collaboration to accelerate the adoption of electric commercial vehicles in India, with a focus on the recently launched Eicher Pro X range of Small Commercial Vehicle.

Under this MoU, both companies will collaborate on multiple fronts to support truck and bus operators looking to introduce electric vehicles in their operations. While The Tata Power Company Limited (Tata Power) will leverage its extensive EV charging infrastructure and expertise in providing customized charging solutions, VECV will contribute its domain expertise in energy efficiency to optimize energy usage in electric trucks, ensuring that the vehicles meet the specific needs of end-users and their applications. Together, they will actively engage with Eicher Trucks and Buses customers to promote the transition to electric mobility, enabling a cleaner, more sustainable future for India's transport sector.

The partnership will focus on developing and implementing innovative solutions to address specific challenges such as range anxiety, charging infrastructure availability, and related cost. Additionally, the collaboration will actively facilitate deployment of other models in Eicher's broad electric vehicle portfolio.

With a focus on addressing critical factors that influence the adoption of electric trucks and buses, this partnership represents a transformative step towards modernizing India's commercial mobility landscape. By combining innovative technologies, extensive infrastructure, and a commitment to sustainability, TPEVCSL and VECV aim to reshape the future of transportation, paving the way for a greener, more efficient commercial vehicle ecosystem.

Tata Power has expanded its EV Charging network under the brand name of EZ Charge to over 1.5 lakh+ home chargers, 5,500+ public, semi-public, and fleet charging points, along with 1,200+ E-bus charging points across 630+ cities and towns. Overall, Tata Power EZ charge has 4 lakh+ registered customers. These chargers have been strategically deployed at diverse and accessible locations such as highways, hotels, malls, hospitals, offices, bus and commercial vehicle depots, residential complexes, etc. This concerted effort has been instrumental in facilitating the exponential growth of electric mobility in India.

**About VE Commercial Vehicles Limited (VECV):**

VE Commercial Vehicles Limited (VECV) is a joint venture between the Volvo Group and Eicher Motors Limited. In operation since August 2008, the company produces and sells the complete range of Eicher branded trucks and buses in 40 countries, Volvo Buses India, exclusive distribution of Volvo Trucks in India, engine manufacturing and exports for Volvo Group, Eicher's non-automotive engines and component business. A multi-brand multi-division company, backed by innovative products & services, VECV today, is recognized as an industry leader for modernizing commercial transportation in India and developing world.

**About Tata Power:**

Tata Power Company Limited, a leading integrated power company and a part of the Tata Group, India's largest multinational business conglomerate, owns a diversified portfolio of 15.8 GW. This portfolio spans the entire power value chain, from renewable and conventional energy generation to transmission, distribution, trading, storage solutions, and solar cell and module manufacturing. As a pioneer in India's clean energy transition, Tata Power has 7.0 GW of clean energy generation, constituting 44% of its total capacity. Committed to achieving Net Zero by 2045, Tata Power has successfully partnered with public and private entities across India's generation, transmission, and distribution sectors, serving ~13 million customers nationwide.

**Disclaimer**

The following press release/announcement may contain forward-looking statements within the meaning of applicable securities laws and regulations. These statements are based on management's current views, expectations, assumptions, and projections regarding the Company's future performance, business plans, growth prospects, competitive and regulatory environment, and other related matter. Such forward-looking statements are subject to various risks and uncertainties, which may cause actual results to differ materially from those expressed or implied in the statements.
