Dear Sir/Madam,

Sub.: Press Release

Please find enclosed the press release titled “Tata Power Completes All Extra High Voltage (EHV) Transmission Lines under South East UP Power Transmission Company Limited (SEUPPTCL) Project with Commissioning of 400 kV Tanda–Gonda and Gonda–Basti Double Circuit”.

This is for your reference and records and is not a disclosure in terms of the requirements of Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Yours Sincerely,
For The Tata Power Company Limited

Vispi S. Patel
Company Secretary
FCS 7021

Encl: As above

Tata Power Completes All Extra High Voltage (EHV) Transmission Lines under South East UP Power Transmission Company Limited (SEUPPTCL) Project with Commissioning of 400 kV Tanda–Gonda and Gonda–Basti Double Circuit

National, March 25, 2026: Tata Power today announced the successful commissioning of two transmission lines - 400 Kilovolt (Kv) Tanda–Gonda and 400kV Gonda–Basti double circuit spanning 154 circuit kilometres (Ckm) in Uttar Pradesh. With this milestone, the Company's has now successfully commissioned all Extra High Voltage (EHV) transmission lines and substations under South East UP Power Transmission Company Limited (SEUPPTCL) project. The network now comprises three 765 kV lines comprising 951 Ckm, fourteen 400 kV lines comprising 566 Ckm, and three 765/400 kV substations with 3460 MVA Transformation capacity across the state.

The commissioning of four transmission assets namely 765 kV Mainpuri–Bara Single Circuit Line, 765 kV Mainpuri–Unnao Single Circuit Line, 400 kV Tanda–Gonda and 400Kv Gonda–Basti double circuit line will enable the safe and reliable evacuation of over 4,000 MW of thermal power generated within Uttar Pradesh. The project will support the state's growing electricity demand while enhancing grid stability and ensuring long-term energy security.

SEUPPTCL is part of Resurgent Power Ventures Pte. Limited, a joint venture led by Tata Power along with ICICI Bank and global investors. The project was acquired as part of the resolution of stressed assets in the power sector.

The project commissioning of 765 kV Mainpuri–Bara Single Circuit Line (380 Ckm), 765 kV Mainpuri–Unnao Single Circuit Line (194 Ckm), 400 kV Tanda–Gonda and 400kV Gonda–Basti double circuit spanning 154 circuit kilometres (Ckm) involved extensive planning and execution, including: Deployment of over 45,000 metric tonnes of tower steel; Stringing of more than 8,600 kilometres of conductors; Execution of 139 critical crossings, including existing transmission lines, railway tracks, gas pipelines, highways, and rivers; Construction across forest areas in full compliance with environmental and statutory norms

The successful completion of these projects marks a significant step in strengthening Uttar Pradesh's transmission infrastructure and ensuring reliable and efficient power supply across the region.

With the commissioning of these seventeen 765 kV and 400 kV corridors spanning 1,517 circuit kilometres, Tata Power's total operational transmission network has expanded to 5,466 circuit kilometres, with an additional 1,863 circuit kilometres currently under construction. This growing portfolio highlights the company's strengthening role in building and modernising India's high-voltage transmission backbone—at a time when robust grid capacity is essential to sustaining the country's economic growth.

About Tata Power:

The Tata Power Company Limited, a leading integrated power company and a part of the Tata Group, India's largest multinational business conglomerate, owns a diversified portfolio of 16.3 GW. This portfolio spans the entire power value chain, from renewable and conventional energy generation to transmission, distribution, trading, storage solutions, and solar cell and module manufacturing. As a pioneer in India's clean energy transition, Tata Power has 7.5 GW of clean energy generation, constituting 46% of its total capacity. Committed to achieving Net Zero by 2045, Tata Power has successfully partnered with public and private entities across India's generation, transmission, and distribution sectors, serving ~13 million customers nationwide.
