Indian Subsidiaries of global companies having plant in India are also eligible to bid if the qualification requirements stated above are met independently or in combination with the parent company. Declaration from parent company needs to be submitted.

- c) The bidders should have successfully type tested Power Transformer of capacity 100 MVA and above for short circuit test, at any of the internationally accredited laboratories. The type tests (including SC test) should have been conducted on 145KV, 100 MVA for GT and 20 MVA for ST (145/6.9 KV) and above capacity or GT & ST within 5 years prior to the date of bid opening. Time period for type test can be extended by another 5 years as a special case, if there is no change in design / material of construction (MOC).

In case the type test reports furnished are not for the quoted equipment / material but for the equipment / material with higher voltage class and/or different capacity, then type test shall be carried out for the offered equipment / material from NABL / International Accredited Lab without any cost implication to the owner and the Type Test reports shall be submitted before despatch of the equipment / material.

4.1.2 PQR for UAT

- a) Bidder shall be an OEM of Unit Aux. transformer (UAT) of 11/6.9KV, 10MVA and above capacity with manufacturing facility / assembly in India.
- b) Bidder shall have supplied minimum 3 no.11/6.9KV, 10MVA and above capacity Unit Aux Transformer in last 10 years. Out of which, minimum 2 no. of 11/6.9KV, 10MVA or higher capacity UAT should have been in satisfactorily commercial operation for a minimum period of one years as on the date of bid opening.

Indian Subsidiaries of global companies having plant in India are also eligible to bid if the qualification requirements stated above are met independently or in combination with the parent company. Declaration from parent company needs to be submitted.

- c) The bidder shall submit Type test reports including Short Circuit Test report obtained from NABL/ International Accredited Lab for the 19/11KV, 10MVA and above capacity UAT. The type tests (including SC test) should have been conducted on the 19/11KV, 10MVA UAT or above rating of the same design.

The type tests (including SC test) should have been conducted on 11/6.9KV, 10MVA UAT and above capacity within 5 years prior to the date of bid opening. Time period for type test can be extended by another 5 years as a special case, if there is no change in design / material of construction (MOC).

- d) In case the type test reports furnished are not for the quoted equipment / material but for the equipment / material with higher voltage class and/or different capacity, then type test shall be carried out for the offered equipment / material from NABL /
