1. INTRODUCTION:

The Tata Power Company Limited (TPCL) is among the largest private sector Power Utility companies in India with presence in Generation, Transmission and Distribution of Power through conventional and renewable sources.

Mundra Thermal Power Station (A Tata Power Division) has implemented the 4150 MW UMPP near the port city of Mundra in the state of Gujarat in India. This UMPP is India's first 830 MW unit thermal power plant using supercritical technology. MTPS operates on imported coal on pulverized coal-based boiler technology. The generating plant is in Tunda village of Mundra district in the state of Gujarat, India.

The tendering activities for this Project are being managed from Tata Power's following Office:

The Tata Power Company Limited,
Mundra Thermal Power Station - Ultra Mega Power Plant,
(formerly a Unit of Coastal Gujarat Power Limited),
Tunda-Vandh Road, Tunda Village,
Mundra, Kutch 370 435, Gujarat.

2. SCOPE:

The brief scope of work for Services of field support services in the BTG area is to provide field support services for carrying out shift wise operational activities like manual valve operation during unit start-up, shutdown & normal operation on 24×7 basis. Shifting of gas cylinders (H₂, CO₂ & N₂) with manually operated cylinders trolley from one place to another place during H₂ filling/purging and boiler preservations and proper storage of cylinders at Turbine H₂ room and N₂ storage room near ESP-10. Local round along with MTPS engineers and operation of dewatering sump pumps and execution of low-risk operational activities under the guidance of MTPS Engineer. The brief scope of work comprises below activities:

Service Deliverables:

- Assistance and support in operational activities like manual valve operation during unit start-up, shutdown & normal operation on 24×7 basis.
- During start-up & shut-down, H₂ and CO₂ gas cylinders handling during H₂ gas purging and filling activities.
- Hand operation of manual & motor operated valves as per instruction of MTPS engineer.
- Coal mill pyrite hopper local/field operation and cleaning.
- Movements of LOTO equipment in the plant.
- Cleaning of equipment and maintaining general housekeeping in plant premises.
- Cleaning of Filters & strainers and Lift operations.
- Isolation and normalization of equipment's from filed side under the guidance of MTPS representative.
- Monitoring and maintaining the sump levels in BTG area and dewatering of sump as per the requirement.
- This list given is an indicative list of jobs. Jobs shall be carried out as directed by MTPS engineers
- Contractor is responsible for maintaining S+5S in their respective work areas.
- Ensure to follow MTPS safety standards and zero safety violations.
- Issue of required work permits to concern to carry out the jobs, however vendor must assist MTPS Engineer for equipment's isolation activities.
- Suitable approach/working platform for safely job execution

Resource Deployment:

- Contractor shall have to arrange all general kind of tools & tackles (like F-rod) required for the various operational activities.
- Contractor shall arrange for consumables like cotton waste, cheese cloth, rustolene, Kerosene, emery paper/tape, Teflon tape etc. for operational activity.
- Vendor must arrange local transportation for their manpower within the plant by proper means of Conveyance, approved by MTPS. Transportation through tractors & non-commercial vehicles are not allowed.
- Authorized person from vendor should make himself available for receiving instruction in every shift/general shift from Engineer Incharge of MTPS.
- Contractor shall engage manpower in round the clock shift duties of 8 hrs. (24×7) and 365 days including holidays.
- Skilled workforce shall be ITI holders with three-years' experience and unskilled workforce shall be with three years' experience.

- In each shift, vendor has to deploy 1 Skilled and 1 Unskilled person and hence for all three shifts, total requirement will be 3 skilled and 3 unskilled persons. For all 5 units, total manpower requirement will be 30 Nos. which includes 15 skilled and 15 unskilled manpower. Vendor has to make sure to provide the relievers as per the requirement.
- Vendor shall remove any worker from the work in view of Engineer In charge misconduct himself for his incompetent or negligent in performance of his duties. Such person shall not be deployed again without prior consent from Engineer In charge.
- Vendor shall provide necessary PPEs like safety helmet, safety shoe, hand gloves, safety goggles, dust mask, ear plug, apron and reflective jackets etc. to all the personnel deployed at MTPS under this service agreement. Any person without any PPE shall not be allowed in the MTPS premises.
- Food facilities to be arrange by vendor for their workmen inside the plant premises at his own cost.
- Flexibility of duty allocation and can be moved to other units during shift as per MTPS Engineers requirements
- Person can't leave from duty in between working time without MTPS Incharge permission.

Detailed Scope of work, technical details & BOQ for this Contract shall be provided in the Tender / RFQ document to all potential bidders submitting the valid EOI with tender fees within deadline of submission.
