### **1. INTRODUCTION:**

The Tata Power Company Limited (TPCL) is among the largest private sector Power Utility companies in India with presence in Generation, Transmission and Distribution of Power through conventional and renewable sources.

Mundra Thermal Power Station (A Tata Power Division) has implemented the 4150 MW UMPP near the port city of Mundra in the state of Gujarat in India. This UMPP is India's first 830 MW unit thermal power plant using supercritical technology. MTPS operates on imported coal on pulverized coal-based boiler technology. The generating plant is in Tunda village of Mundra district in the state of Gujarat, India.

The tendering activities for this Project are being managed from Tata Power's following Office:

The Tata Power Company Limited,  
Mundra Thermal Power Station - Ultra Mega Power Plant,  
(Formerly a Unit of Coastal Gujarat Power Limited),  
Tunda-Vandh Road, Tunda Village,  
Mundra, Kutch 370 435, Gujarat.

### **2. SCOPE OF WORK:**

### **Contract for structure/route modification of existing cable racks.**

Scope of the service shall be removal of existing corroded steel supports of various pipe racks cable trays and installation of new steel supports in existing cable trays.

Detail of service: -

- Removal of existing corroded steel supports of cable trays in pipe rack.
- Grinding of area from where the old steel support is removed from pipe rack.
- Removal of damaged cable trays and installation of new cable trays will be in vendor scope. Required hardware will be in vendor scope.
- Installation of new Steel structure support in place of old removed steel support.
- Tagging of cable tray with new steel structure support shall be scope of vendor.
- Shifting of steel structure (angel, Channel etc) and cable trays from MTPS store to site or any other location for sand blasting shall be scope of vendor.
- Welding rod, anchor fastener of proper size, welding machine, gas cutting set paint & consumable items will be in scope of vendor.
- Touch up paint at welding/ grinding location to be done with proper paint shade.
- Structural steel fabrication will be done as per the guideline of the MTPS site engineer & TCE.  
notes and details.
- After completion of work removed old supports/cable trays shifting to scrap yard as per stores process shall be scope of vendor.
- All supports shall be replaced one by one i.e., one old support shall be removed, and new support shall be placed after that only second old support shall be removed.
- During work if any cable got damaged repairing of that cable shall be scope of vendor.
- Scaffolding will be in TATA Power scope.
- This work shall be completed within 3 months of the PO received. Manpower needs to be mobilized within 7 days of the PO received.
- Any tools, special tools, consumables etc and vehicle for material shifting shall be scope of vendor. MTPS will not provide any tools or vehicle for material shifting.
- Tools and tackles required for this job shall be third party inspected with valid certification from authorized agencies.
- Vendor should follow all safety guidelines as per MTPS safety policy.
- Service specification
